TECHNICAL ADVISORY COMMITTEE

Establish & Maintain a scientific knowledge base describing natural phenomena occurring at the Headwaters site and their connection with local & regional phenomena.

12 participants, 3 meetings, working on developing research 2019 plan

"We are going to share this as an educational opportunity for all of our future generations. I did this for my children, my grandchildren, and my great-grandchildren. It is what I believe we are here for, to leave a legacy."

- B.Kyle, Volunteer & Donor

"We are so fortunate that a public entity owns the property & is doing the right thing to restore it."

- K. Boyd

"Thank you for creating the Headwaters project. It's a wonderful natural area and teaching venue and a valuable resource for the whole area."

- Visitor
